

Cold / hot packs

The gel packs

Cold / hot packs

When time is of essence

REF 93.000.00.042

REF 93.000.00.350

The cold / hot packs contain an environmentally friendly filling. The gel ensures an even release of coolness and heat during therapeutic use. The bag which holds the gel remains flexible even at subzero temperatures whilst it also withstands boiling water. The packs can simply be warmed up in the microwave. You will obtain protective covers with the packs which serve as hygiene protection and protects the user from cold and heat burns. These are made of non-woven fabric. In addition to this, for urgent cases, we also offer you instant-cold packs. The coldness is activated within seconds when the inner plastic bag is squeezed.

The instant-cold pack is for single use only.

Cold / hot packs, blue
