

## NILODOR

- » is a scientific product originally developed for space travel
- » is a deodorant concentrate which effectively neutralises all unpleasant odours in the shortest of times
- » not only masks bad odours, but completely eliminates odours without numbing of the olfactory nerves
- » persists for many hours and is non-toxic

### Instructions for use:

Only 1 drop is sufficient to eliminate all bad odours. When dosed correctly, you will not notice unpleasant odours or NILODOR.

Among other applications, NILODOR is used for colostomy, ileostomy, carcinoma, gangrene, faeces and urine.
