

Closed patient suction system

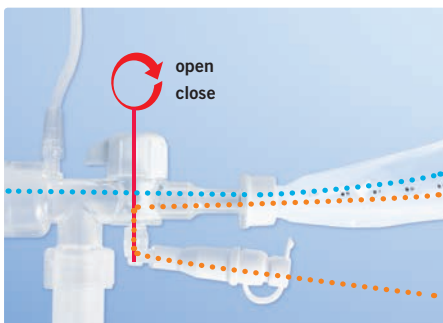

Closed suction

A whole range of problems are encountered during long-term ventilation in everyday hospital practice. We have developed the OptiFlo closed suction system in order to make ventilation especially safe and hygienic, both for patients and nursing staff.

Lockable Rinsing Chamber/Longer service life

In answer to user needs, we have now extended the service life of our OptiFlo to 72 hours, and we have also developed a lockable rinsing chamber. As a result, OptiFlo is even safer whilst remaining perfectly simple to use.

In addition, its new features means it saves time and storage space in your hospital.

1. suction: (blue dotted line)
2. rinsing/safe cleaning: (orange dotted line)

- easy to implement
- no reflux in the trachea
- more hygiene & safety

Closable rinsing chamber

Atraumatic catheter tip

Secretion sight glass

Aerosol dosage adapter

Neonatal, standard system with additional color coding of the catheter

	Size	Length	Packaging unit	REF
	CH 05	31 cm	60	43.004.59.050
	CH 06	31 cm	60	43.004.59.060

Pediatric, standard system with additional color coding of the catheter

	Size	Length	Packaging unit	REF
	CH 07	31 cm	60	43.004.59.070
	CH 08	31 cm	60	43.004.59.080

Adult, safeclean, with closable rinsing chamber

	Size	Length	Packaging unit	REF
	CH 10	56 cm	60	43.004.57.100
	CH 12	56 cm	60	43.004.57.120
	CH 14	56 cm	60	43.004.57.140
	CH 16	56 cm	60	43.004.57.160

Adult, safeclean, extra-long version, with closable rinsing chamber

	Size	Length	Packaging unit	REF
	CH 14	62 cm	60	43.004.57.142
	CH 16	62 cm	60	43.004.57.162

Adult, safeclean, tracheostomized patients, with closable rinsing chamber

	Size	Length	Packaging unit	REF
	CH 12	36 cm	60	43.004.57.121
	CH 14	36 cm	60	43.004.57.141
	CH 16	36 cm	60	43.004.57.161

Advantages at a glance

- no disconnection of the tube
- continuous ventilation
- no PEEP loss
- improved PEEP seal
- no drop in saturation
- secretion control
- reduction of cerebral pressure
- improved patient tolerance
- extra-soft sleeve
- **lockable rinsing chamber (for adults)**
- **replacement interval 72 hours**
- **DEHP-free**
